

SciPractice — App Store Listing Copy

One source of truth for store listings. Keep this in sync with the app.

Framing: general science exam prep & study (NOT tied to any single exam board).

Brand basics

- **App name:** SciPractice
- **Category:** Education
- **Supported subjects:** Chemistry, Biology, Physics
- **Core tabs:** Practice (quiz), Virtual Lab, Study Cards, Final Exams
- **Tone:** encouraging, student-friendly, confident — not corporate

Shared long description (base copy)

Struggling to stay on top of Chemistry, Biology, and Physics? **SciPractice** turns your phone into a complete science study companion — built for students preparing for school exams, entrance tests, and beyond.

Whether you're revising tonight or cramming before the big test, SciPractice gives you everything in one place:

Practice Quizzes — Thousands of curriculum-aligned questions across Chemistry, Biology, and Physics. Drill by topic, track your progress, and learn from instant feedback.

Virtual Lab — Step into interactive, animated experiments you can't always run in a real classroom. Explore reactions, apparatus, and procedures at your own pace — no lab coat required.

Study Cards — Swipeable flashcards for quick recall on the go. Perfect for bus-stop revision and last-minute refreshers.

Final Exams — Full-length mock exams that simulate the real thing, so test day feels familiar, not frightening.

Why students love SciPractice:

- Covers the core sciences in depth — Chemistry, Biology, Physics
- Topic-by-topic structure that mirrors how you actually study
- Hands-on virtual experiments when a physical lab isn't an option
- Progress tracking so you always know what to hit next
- Works great for self-paced learning, anywhere

Stop memorizing and start understanding. Download **SciPractice** and make science your strongest subject.

SciPractice is an independent study aid. Always follow your school's official syllabus for exam-specific requirements.

Google Play Store

Title (30 chars)

SciPractice: Science Prep

Short description (80 chars)

Science exam prep & study: quizzes, virtual labs, flashcards, mock exams.

Full description

Use the shared long description above, verbatim. Google indexes the description for search, so the keywords below are already woven in naturally.

Science exam prep, Chemistry practice, Biology quiz, Physics revision, virtual lab simulator, study flashcards, mock exam, science study app, exam preparation, test practice, chemistry questions, biology questions, physics questions, learn science, GCSE science, high school science, secondary school revision, self-paced learning, offline study cards, science homework help.

SciPractice is your pocket science coach for quizzes, virtual labs, and exam-ready study. Built for students preparing for school exams and entrance tests, SciPractice covers Chemistry, Biology, and Physics in depth with thousands of curriculum-aligned questions, interactive virtual experiments, swipeable study cards, and full-length final exams.

Google Play keywords (for internal reference / ASO)

science, exam, prep, chemistry, biology, physics, quiz, virtual lab, flashcards, mock test, revision, study, learn, school, secondary, gcse, high school, practice questions, science simulator, homework

Apple App Store

Subtitle (30 chars)

Quizzes, Labs & Study Cards

Keywords field (100 chars, comma-separated, no spaces, no duplicates of app name)

science,chemistry,biology,physics,quiz,exam,lab,flashcards,revision,study,mock,test,practice,learn,school

Description

Apple does NOT index the description for keywords, so keep it clean and persuasive — do not keyword-stuff here.

[Insert shared long description here]

Promotional text (170 chars)

New: interactive Virtual Lab simulations! Practice Chemistry, Biology & Physics with quizzes, flashcards, and mock exams — all in one study app.

SEO / ASO keyword bullets (cross-store)

Use these to inform copy and backend keyword fields. Prioritize the top row.

Primary (highest intent):

- science exam prep
- chemistry practice
- biology quiz
- physics revision
- virtual lab / science lab simulator
- study flashcards
- mock exam / practice test

Secondary (broader reach):

- science study app
- learn science
- school exam preparation
- high school science
- secondary school revision
- self-paced learning
- science homework help
- curriculum-aligned questions

Long-tail:

- interactive chemistry experiments on phone
- physics questions with answers
- biology flashcards for revision
- prepare for science finals

- virtual science lab no equipment

Notes / reminders

- Do NOT mention any single exam board (e.g. WAEC/NECO) — the app is general-purpose.
- Keep the subject list (Chemistry, Biology, Physics) consistent everywhere.
- If a new subject or tab is added, update Brand basics + both store copies together.
- Screenshots should map to the four tabs: Practice, Virtual Lab, Study Cards, Final Exams.
